ARTICLE IV

OBLIGATIONS OF DEVELOPER

Section 4.01 Construction of Project.

Developer will acquire land and construct 70 single and two family residential units in the Project. This Project is intended to be constructed in phases. The Developer intends to acquire the property and commence construction of residences allowing development of 22 lots as part of the first phase of the Project. Thereafter, additional development is planned to occur at the rate of at least 20 additional residences annually. Ad valorem (TIF) taxes will be pledged on all acquired real estate, as described in Exhibit A, regardless of the state of lot development, with an effective date of no later than January 1, 2010.

Section 4.02 Restricted Sale of Lots.

The parties intend that no assessment districts be created for assessing lot owners for installation of infrastructure. Because of such installation without special assessments, a developer could receive a windfall of income due to no liability for such

assessment. It is the further intention of the parties that the residential development contemplated in the Plan and this Contract be for “moderately priced” residential homes, with lot sales not to exceed \$8,000.00 per lot.

Section 4.02 Non-Discrimination .

Developer agrees and covenants for itself, its successors and assigns that as long as any Bonds are outstanding, it will not discriminate against any person or group of persons on account of race, sex, color, religion, national origin, ancestry, disability marital status or receipt of public assistance in connection with the Project. Developer, for itself and its successors and assigns, agrees that during the construction of the Project, Developer will not discriminate against any employee or applicant for employment because of race, religion, sex, color, national origin, ancestry, disability, marital status or receipt of public assistance. Developer will comply with all applicable federal, state and local laws related to the Project.

Section 4.03 Real Estate Taxes.

Developer intends to create an increased taxable real property base attributable to the Project no later than January 1, 2008.

Section 4.04 Acknowledgement of Tax Level.

Developer, City and Authority acknowledge that the payment of the Bonds is entirely contingent on factors over which the Authority has no control, including but not limited to the assessed valuation of the project, the variation of tax levies established in the future by taxing entities, statutory, constitutional and court ruling changes.

ARTICLE V

FINANCING REDEVELOPMENT PROJECT; ENCUMBRANCES

Section 5.01 Financing.

Developer shall pay all Construction Costs for residential development, including, but not limited to normal utility extension and hookup fees.

ARTICLE VI

DEFAULT, REMEDIES; INDEMNIFICATION

Section 6.01 General Remedies of Authority and Developer.

Subject to the further provisions of this Article VI, in the event of any failure to perform or breach of this Redevelopment Contract or any of its terms or conditions, by either party hereto or any successor to such party, such party, or successor, shall, upon written notice from the other, proceed immediately to commence such actions as may be reasonably designed to cure or remedy such failure to perform or breach which cure or remedy shall be accomplished within a reasonable time by the diligent pursuit of corrective action. In case such action is not taken, or diligently pursued, or the failure to perform or breach shall not be cured or remedied within a reasonable time, this Redevelopment Contract shall be in default and the aggrieved party may institute such proceedings as may be necessary or desirable to enforce its rights under this Redevelopment Contract.

Section 6.02 Additional Remedies of Authority.

In the event that Developer, or its successor in interest, shall fail to commence the construction of the Project on or before June 1, 2008, such event shall be deemed a failure to perform under this Redevelopment Contract.

In the event of such failure to perform, breach or default occurs and is not cured in the period herein provided, the parties agree that the damages caused to the Authority would be difficult to determine with certainty and that a reasonable estimation of the amount of damages that could be incurred is the unpaid portion of the principal of the 2007 A Bond payment schedule, which may be satisfied by delivery of the 2007 A Bond (the "Liquidated Damages Amount"). The Liquidated Damages Amount shall be paid by Developer to Authority within 30 days of demand from Authority.

Interest shall accrue on the Liquidated Damages Amount at the rate of one percent (1%) over the prime rate as published and modified in the Wall Street Journal from time to time and interest shall commence from the date that the Authority gives notice to the Developer demanding payment.

Section 6.03 Enforced Delay Beyond Party's Control.

For the purposes of this Redevelopment Contract, neither party, as the case may be, nor any successor shall be in breach of or in default in its performance of obligations within its control, when and without its fault, a default in such obligation occurs caused by acts of God, or Government, acts of terrorism, or in the event of enforced delay in the project due to unforeseeable causes beyond the control of the parties or either of them, including fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, and unusually severe weather or delays in subcontractors due to such causes; it being the purpose and intent of this provision that in the event of the occurrence of any such enforced delay, the time or times for performance of the obligations of the Authority or of Developer with respect to construction of the Project, as the case may be, shall be extended for the period of the enforced delay: Provided, that the party seeking the benefit of the provisions of this section shall, within thirty (30) days after the beginning of any such enforced delay, have first notified the other party thereof in writing, and of the cause or causes thereof and requested an extension for the period of the enforced delay.

Section 6.04 Limitation of Liability; Indemnification.

Notwithstanding anything in this Article VI or this Redevelopment Contract to the contrary neither Authority, City, nor their officers, directors, employees, agents or their governing bodies shall have any pecuniary obligation or monetary liability under this Redevelopment Contract. Specifically, but without limitation, neither City nor Authority shall be liable for any costs, liabilities, actions, demands, or damages for failure of any representations, warranties or obligations hereunder.

ARTICLE VII
MISCELLANEOUS

Section 7.01 Notice Recording.

This Redevelopment Contract or a notice memorandum of this Redevelopment Contract may be recorded with the County Register of Deeds in which the Premises is located.

Section 7.02 Governing Law.

This Redevelopment Contract shall be governed by the laws of the State of Nebraska, including but not limited to the Act.

Section 7.03 Binding Effect; Amendment.

This Redevelopment Contract shall be binding on the parties hereto and their respective successors and assigns. This Redevelopment Contract shall run with the Premises. The Redevelopment Contract shall not be amended except by a writing signed by the party to be bound.

DESCRIPTION OF PROJECT AND DEVELOPERS REDEVELOPMENT PLAN FOR GREATER LEXINGTON RESIDENTIAL PROJECT

OVERVIEW:

This plan is intended to redevelop an area within the City of Lexington, which has been declared blighted and substandard within the meaning of the Community Redevelopment Law of the State of Nebraska.

The Developer intends to acquire, develop and rehabilitate the real estate shown on Exhibit A to the Redevelopment Contract by constructing an approximate 70 lot housing development, phased in over 3 phases, including infrastructure on the real estate and provide payment assistance to the City for certain off site infrastructure installation.

The Developer will not develop the project in the redevelopment area or elsewhere without the benefit of tax increment financing. The costs and risks of the project are simply too great to be absorbed by the Developers without the assistance of tax increment financing. All financing for the project is entirely contingent on the grant set forth in the redevelopment contract to which this exhibit is attached. The Developers propose that the Community Redevelopment Authority issue bonds, designated the 2007 A Bonds, and further bonds designated by year of issuance, to be repaid from the incremental tax revenues generated by the redevelopment project pursuant to §18-2147 of the Nebraska Revised Statutes, for a period of 15 years from an effective date of January 1, 2008, through January 1, 2010, by plan amendment, as described in the Redevelopment Contract. The Developers will use the proceeds of the bond to assist in payment of Project Costs in the construction and acquisition of the project.

THE REDEVELOPMENT PLAN:

1. Relationship of Plan to Local objectives for appropriate land use: This plan contemplates a change in current land use. The land use will be changed from crop land to a 3 phase residential development. Two-Family Residential District zoning is currently appropriate for the intended use. Reutilization of the existing real estate meets existing local objectives for appropriate land use for the area affected by this plan. The redevelopment area affected by this plan is one of few remaining lands suitable for residential development within the City. The new development is targeted to entice new residents to the community for general economic support of the community and to retain vital services in the City.

2. Relationship of Plan to Local objectives for improved traffic flow and public utilities in plan area:

Streets: Streets will conform to current layout and design as set forth in the various subdivision plats affecting the project.

Storm Water Facilities: The City will pay for the installation of all storm sewer lines within the subdivision.

Potable Water Lines: The City will install all potable water lines and fire hydrants required in the subdivision.

Sanitary Sewer Lines: The City will pay for the installation sanitary sewer lines with in the subdivision.

3. Redevelopment project boundaries: Exhibit C1 to the Redevelopment Contract shows the boundaries of the project. The property is currently unimproved.

4. Proposed land use plan: Exhibit C2 shows the proposed land use plan after redevelopment as a fully developed residential development. This plat will be amended and changed as circumstances require for development.

5. Information on standards for population densities; land coverage; building intensities; and land coverage after redevelopment: Population density will change for the area. Currently there is no residential occupancy. During the phase in of the construction, up to 70 residential lots will be developed.

6. Statement regarding change in street layouts: This Plan proposes street layouts as shown in Exhibit C2.

7. Site plan after redevelopment: Exhibit C2 is an accurate proposed site plan of the redevelopment project after redevelopment.

8. Statement as to the kind and number of additional public facilities or utilities required to support land use after redevelopment: Additional public utilities are required to support the proposed plan, as discussed above.

9. Public cost/benefit analysis: This plan requires that the Developers acquire and construct a phased residential development. It is intended that no public funds, other than the tax increment financing benefit, will be used on the acquisition and development of the property.

Tax benefit: Currently the real estate is unimproved. The real estate taxes from the land will continue to be paid to the taxing authorities.

The project will result in at least 70 new residential units developed in the City. This will not require additional schools be built or result in an additional burden on community facilities. Many new residents will bring home paychecks to spend in City stores, thus expanding local sales tax base and property tax base. Therefore, no undue stress on the school system, police or fire protection is contemplated.

10. Pledge of Incremental Taxes. Pursuant to Section 18-2147 of the Act, any ad valorem tax levied upon real property in the redevelopment project specified in the plan, shall be divided, for the period not to exceed 15 years after the effective date of the provision, which effective date shall be January 1, 2008, 2009, and 2010, as provided in the Redevelopment Contract [such effective dates shall be determined upon approved plan amendment from time to time]:

a. That portion of the ad valorem tax which is produced by levy at the rate fixed each year by or for each public body upon the redevelopment project valuation shall be paid into the funds, of each such public body in the same proportion as all other taxes collected by or for the bodies; and

b. That portion of the ad valorem tax on real property in the redevelopment project in excess of such amount, if any, shall be allocated to and, when collected, paid into a special fund of the Authority to pay the principal of; the interest on, and any premiums due in connection with the bonds, loans, notes, or advances on money to, or indebtedness incurred by, whether funded, refunded, assumed, or otherwise, such Authority for financing or refinancing, in whole or in part, a redevelopment project. When such bonds, loans, notes, advances of money, or indebtedness including interest and premium due have been paid, the Authority shall so notify the County Assessor and County Treasurer and all ad valorem taxes upon real property in such redevelopment project shall be paid into the funds of the respective public bodies.
