DESCRIPTION OF PROJECT

OVERVIEW:

This plan is intended to redevelop an area within the City of Lexington, which has been declared blighted and substandard within the meaning of the Community Redevelopment Law of the State of Nebraska.

The Company intends to acquire, develop and rehabilitate the real estate shown on Exhibit A to the Redevelopment Contract by constructing a 115,000 square foot manufacturing facility, creating 100 additional jobs.

The Company will not develop the Project in the Redevelopment Area or elsewhere without the benefit of the benefits under the Redevelopment Contract. The costs and risks of the Project are simply too great to be absorbed by the Company without this assistance.

The Agency will sell the real estate shown on Exhibit A to the Company which will use the proceeds of a Community Development Revenue Bond to pay for the Project Costs.

AMENDED
REDEVELOPMENT PLAN

THE REDEVELOPMENT PLAN:

This is an amended redevelopment plan which amends the Redevelopment Plan for the Redevelopment Area previously approved by the Lexington City Council on the 25th day of September, 2012

1. Relationship of Plan to Local objectives for appropriate land use: This plan contemplates a change in current land use. Industrial zoning is currently appropriate for the intended use. Reutilization of the existing real estate meets existing local objectives for appropriate land use for the area affected by this plan.

2. Relationship of Plan to Local objectives for improved traffic flow and public utilities in plan area:

Streets: Streets conform to current layout and design as set forth in the various subdivision plats affecting the project.

Potable Water Lines: The City has installed potable water lines and fire hydrants required to Redevelopment Area.

Sanitary Sewer Lines: The City has installed sanitary sewer lines to the Redevelopment Area.

No special assessment districts will be established for the initial infrastructure installation.

3. Redevelopment Area Boundaries: Exhibit B-1 to the Redevelopment Contract shows the boundaries of the Redevelopment Area. The Redevelopment Area is currently improved with compacted fill and concrete slabs and foundations.

4. Proposed land use plan: Exhibit B-2 to the Redevelopment Contract shows the proposed land use plan for the Redevelopment Area after redevelopment as an industrial development.

5. Information on standards for population densities; land coverage; building intensities; and land coverage after redevelopment: Population density will not change for the area. Currently there is no residential occupancy.

6. Statement regarding change in street layouts: This Plan proposes no change in street layouts.

7. Site plan after redevelopment: Exhibit B-2 to the Redevelopment Contract is an accurate proposed site plan of the Redevelopment Area after redevelopment.

8. Statement as to the kind and number of additional public facilities or utilities required to support land use after redevelopment: No additional public utilities are required to support the proposed plan, as discussed above.

9. Pledge of Incremental Taxes. Pursuant to Section 18-2147 of the Act, any ad valorem tax levied upon Redevelopment Area (which is legally described in attached Exhibit “A” to the Redevelopment Contract) shall be divided, for the period not to exceed 15 years after the effective date of the provision, which effective date shall be January 1, 2015. Said taxes shall be divided, as follows:

a. That portion of the ad valorem tax which is produced by levy at the rate fixed each year by or for each public body upon the redevelopment project valuation shall be paid into the funds, of each such public body in the same proportion as all other taxes collected by or for the bodies; and

b. That portion of the ad valorem tax on real property in the redevelopment project in excess of such amount, if any, shall be allocated to and, when collected, paid into a special fund of the Agency to pay the principal of; the interest on, and any premiums due in connection with the bonds, loans, notes, or advances on money to, or indebtedness incurred by, whether funded, refunded, assumed, or otherwise, such Agency for financing or refinancing, in whole or in part, a redevelopment project. When such bonds, loans, notes, advances of money, or indebtedness including interest and premium due have been paid, the Agency shall so notify the County Assessor and County Treasurer and all ad valorem taxes upon real property in such redevelopment project shall be paid into the funds of the respective public bodies.

10. Cost Benefit Analysis. This Plan when presented for recommendation and approval shall be accompanied by a cost benefit analysis. Such analysis is as follows:

a. Tax shifts resulting from the approval of the use of funds pursuant to section 18-2147:

This project is intended to add new positions for this facility. This may result in new residents in the City of Lexington resulting in a possible increase student load for the school system. However, implementation of the full project employment will occur a number of years. Any increase in students will be spread over the entire class range provided by the Lexington School District and should not result in increased teacher hires.

b. Public infrastructure and public service needs:

No additional public service needs are contemplated. Sales tax generated by new hires and the construction of the facility will reimburse the City for any possible increased public service expenditures as a result of the project.

c. Impacts on employers and employees within the project area:

None exist. Therefor no impact is expected.

d. Impacts on employers and employees in the city, but not in the project area:

The construction of the facility will increase demand for employees, resulting in upward pressure on wages.

e. Other impacts:

No significant negative additional impacts are anticipated. However the Project will invite population growth with its attendant spending and investment in the community. The Project is projected to be assessed for real property purposes after completion at \$8,000,000.
