

April 7<sup>th</sup>, 2023

Black Diamond Auto  
405 W. 5th Street  
Lexington, NE 68850

To Whom it May Concern:

Community outreach and public information play a vital role in the success of the City of Lexington's Stormwater Pollution Prevention Program. In providing knowledge to our residents, businesses and visitors about the environment in Lexington, we hope to raise awareness in preserving these assets. Since the stormwater collected in the streets and catch basins flow untreated to our waterways, it is vital to prevent pollution at the source. Waterways become polluted when pollutants such as used motor oil, antifreeze, paints, fertilizers, pet waste, soapy water, and pesticides, are washed into the storm drains.

Your business has been identified as being a part of the automotive industry within the City of Lexington's storm sewer system. Enclosed is an educational brochure on how you can help our community continue to keep our lakes, streams and rivers free of pollutants.

Feel free to contact the Development Services Department with any questions or comments regarding the City's Stormwater Management Plan.

Sincerely,

A handwritten signature in blue ink, appearing to read "Bill Brecks", with a long horizontal flourish extending to the right.
