

Black Diamond Auto would like to block off Washington Street from 4th Street to 6th Street. We would also like to block off 4th street form Grant to Washington Street and 5th Street from Grant to Lincoln Street for our 2nd Annual Fundraiser Thunder In The Valley.

Attached we have a list of many of the businesses along these streets that are okay with us using these areas for our car show. Many have shown interest as more attention to downtown is welcome by them.

The Box Bar and the local Eagles Club will both be open to help with supporting our cause and are donating a percentage of their take for that day.

This year we will be holding the fundraiser for 3 year old Kevin Vargas of Lexington who is battling with Leukemia. All proceeds and donations made will be going to Kevin and his family.

Congratulations, Corvella!
