

OPTIMIST COMPLEX PARKING LOT IMPROVEMENTS – PHASE II

Project No. 127-E1-014

PROPOSAL FORM

The undersigned, having carefully examined the proposal form, drawings and specifications for the Optimist Complex Parking Lot Improvements – Phase II for the City of Lexington, and other such work as may be incidental thereto, and having personally examined the site of the work, for the performance of such work according to the following schedule of approximate quantities as set forth. Work will be completed in accordance with Section 12 – Portland Cement Concrete Pavement, see attached. Work outlined for construction includes but it not limited to site preparation, concrete pavement construction, installation of tie bars, saw cutting, joint sealing, barricades & work area control devices, etc.

The estimated quantity of excess material to be removed from the site is as follows:

Field House Parking Lot – 675 CY

Ball Field Parking Lot - 266 CY

City forces will provide trucks to haul the material away from each site. The Contractor will be required to provide equipment to load the material in the truck. The Contractor can coordinate the timing with City Staff.

Painting of parking strips and installation of all handicap parking signage after construction will be done by City forces.

In submitting this proposal, the Contractor further states that he is complying with, and if awarded a contract, will continue to comply with Fair Labor Standards as defined in 73-104, Reissue Revised Statutes of Nebraska 1943, as amended, in the pursuit of his business and in the execution of the contract on which he is bidding.

Respectfully submitted this 26 day of July, 2017.
