

RESOLUTION NO. 2019 – 20

WHEREAS, Lexington City Code Sections 28-100, 28-232, and 28-439 authorizes the City Council to establish by Resolution a schedule of rates and charges for electric service, water service, and sanitary sewer service.

BE IT THEREFORE RESOLVED BY THE MAYOR AND COUNCIL OF THE CITY OF LEXINGTON, NEBRASKA, that the following water rates and charges are established and shall take effect January 1, 2020, to be reflected on billings following such date. That all other electric rates, water rates, and sanitary sewer rates and charges previously established shall remain unchanged.

Section 1. Electric Rates

NET Metering Service Rider:

Applicable to any Customer that has a generation facility that uses as its energy source wind or solar resources and that is interconnected behind their service meter with an aggregate nameplate capacity of 25 kW or less.

The Customer will be allowed to use the electrical output of their applicable generation facility (or facilities) to supply all or a portion of their own load and deliver any surplus to the City. If over the billing period there is a net flow of energy from the City to the Customer, the Customer will be billed for the net use at rates included in their applicable standard rate schedule. If over the billing period there is a net flow of energy from the Customer to the City (Net Excess Energy, “NEG”) the monetary credit for the NEG will be determined and credited against other non-energy charges billed to the customer pursuant to their applicable standard rate schedule for that billing period. Any remaining credit that exists after application of the monetary credit for NEG for that billing period will be carried forward to the subsequent billing period as an offset to future charges.

The monetary credit for NEG will be determined based on the following purchase rates:

Summer: for the period May 1 through September 30, the purchase rate for NEG shall be as follows:

Wind and Photo-voltaic generation: \$0.052 per kWh

Winter: for the period October 1 through April 30, the purchase rate for NEG shall be as follows:

Wind and Photo-voltaic generation: \$0.052 per kWh
