CITY OF LEXINGTON, NEBRASKA PROCUREMENT PROCEDURES AND CODE OF CONDUCT

The City of Lexington, Nebraska will in all cases of procurement for professional services construction services and materials needed for Community Development Block Grant (CDBG) Programs adhere to Code of Federal Regulation 2 C.F.R. Section 200.320 or current state statutes; in all cases the stricter shall apply. The following procedures summarize said laws and regulations.

- A. Procurement shall be made by one of the following methods:
- 1) **Micro Purchase Procedures [2 C.F.R. Section 200.320 (a)]** – This method will generally be used to obtain very small quantities of supplies. Procurement by micro-purchase is the acquisition of supplies or services, the aggregate dollar amount of which does not exceed the micro-purchase threshold (**2 CFR Section 200.67**), currently set at \$3,000 except as otherwise discussed in Subpart 2.1 of that regulation, but this threshold is periodically adjusted for inflation. To the extent practicable, the non-Federal entity must distribute micro-purchases equitably among qualified suppliers. Micro-purchases may be awarded without soliciting competitive competitive quotations if the non-Federal entity considers the price to be reasonable.
 - 2) **Small Purchase Procedures [2 C.F.R. Section 200.320 (b)]** – **This method will generally be used to obtain small quantities of supplies.** Small purchase procedures are those relatively simple and informal procurement methods for securing services, supplies, or other property that do not cost more than the simplified acquisition threshold fixed at **41 U.S.C.1908** (currently set at \$150,000). If small purchase procedures are used, price or rate quotations shall be obtained from an adequate number of qualified sources.
 - 3) **Competitive Sealed Bids [2 C.F.R. Section 200.320 (c)]** - **This method will generally be used to obtain contractors for construction projects and for large quantities of goods or materials.** Bids are publicly solicited and a firm-fixed-price contract (lump sum or unit price) is awarded to the responsible bidder whose bid, conforming with all the material terms and conditions of the invitation for bids, is the lowest in price.
 - 4) **Competitive Proposals [2 C.F.R. Section 200.320 (d)]** - **This method will generally be used to obtain professional services.** This method has two sub-parts—the Request for Proposal and the Request for Qualifications. Request for Proposals – The Request for Proposals (RFP) must clearly and accurately state the technical requirements for the goods and services required; The grantee must publicize the RFP, and to the maximum extent practicable, honor reasonable requests by parties to have an opportunity to compete; Proposals must be solicited from an adequate number of qualified sources, consistent with the nature and requirements of the procurement; The grantee must conduct a technical evaluation of the submitted proposals to identify the responsible offerors; As necessary, the grantee must conduct negotiations with those offerors who are deemed responsive and responsible and fall within a competitive price range, based on the grantee's evaluation of the bidders' pricing and technical proposals. After negotiations, these bidders may be given the opportunity to submit a "best and final" offer; and The grantee must award the contract to the most responsive and responsible offeror after price and other factors are considered through scoring the proposals or "best and final" offers according to predetermined evaluation criteria. The successful proposal/offeror must clearly be the most advantageous source of the goods and services. Request for Qualifications – Grantees and subgrantees may use competitive proposal procedures for qualifications-based procurement

of architectural/engineering (A/E) professional services whereby competitors' qualifications are evaluated and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The method, where price is not used as a selection factor, can only be used in procurement of A/E professional services. It cannot be used to purchase other types of services though A/E firms are a potential source to perform the proposed effort.

- 5) **Non-Competitive Proposals/Sole Source [2 C.F.R. Section 200.320 (f)] – This method will only be used after approval from the Department of Economic Development.** When requesting permission to use this method, the grantee will have to show that another method of procurement was not feasible because: the item or service was only available from a single source; a public emergency or condition requiring urgency existed which did not permit the use of competitive procurement; or competition was determined to be inadequate after solicitation of proposals from a number of sources.
- B. The cost plus a percentage of cost and percentage of construction cost method of contracting shall not be used.
- C. The City of Lexington shall maintain records sufficient to detail the significant history of a procurement. These records shall include at a minimum: rationale for the method of procurement; selection of contract type; contractor selection or rejection; and the basis for the cost or price.
- D. The following contract provisions or conditions shall be included in all procurement contracts and subcontracts:
