High Tension Service:

The High Tension rate shall be based upon a cost-plus calculation obtained from real-time metering. The rate shall include the actual cost of wholesale electricity purchased plus a percentage added to cover the required electric utility margin. The High Tension rate will be calculated, charged, and managed by the City Manager.

All High Tension rate customers are required to maintain a power factor of 90% or greater at all times. Power factor adjustments will be made in the billing demand when the power factor at the time of the customer's monthly maximum use is less than 90%. The customer's billing demand will be multiplied by the ratio of 0.90 to the customer's power factor (expressed in decimal form) as determined at the time of the customer's maximum use.

NET Metering Service Rider:

Applicable to any Customer that has a generation facility that uses as its energy source wind or solar resources and that is interconnected behind their service meter with an aggregate nameplate capacity of 25 kW or less.

The Customer will be allowed to use the electrical output of their applicable generation facility (or facilities) to supply all or a portion of their own load and deliver any surplus to the City. If over the billing period there is a net flow of energy from the City to the Customer, the Customer will be billed for the net use at rates included in their applicable standard rate schedule. If over the billing period there is a net flow of energy from the Customer to the City (Net Excess Energy, "NEG") the monetary credit for the NEG will be determined and credited against other non-energy charges billed to the customer pursuant to their applicable standard rate schedule for that billing period. Any remaining credit that exists after application of the monetary credit for NEG for that billing period will be carried forward to the subsequent billing period as an offset to future charges.

The monetary credit for NEG will be determined based on the following purchase rates:

	Summer May 1 – Sept. 30	Winter Oct. 1 – Apr. 30
NEG Credit	$0.05 per kwh	$0.05 per kwh

Automated Meter Reading Fee: $1.00 per month per electric meter.
